EUROTECH

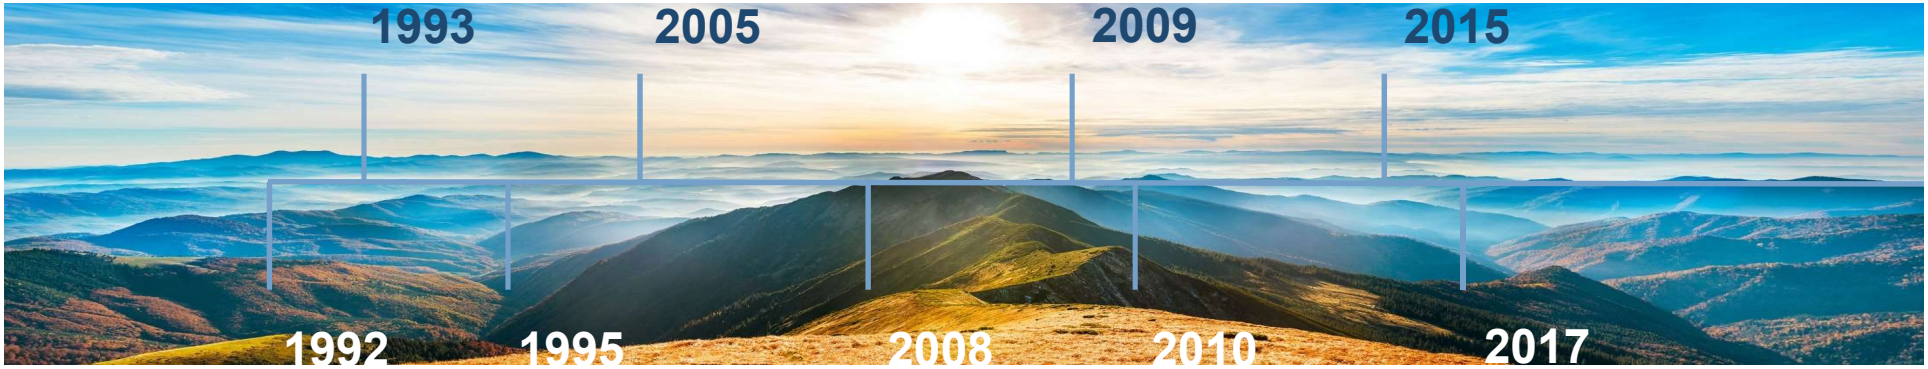
Imagine. Build. Succeed.

Roberto Siagri,
CEO

Salone della CSR
Udine 19 Febbraio 2019

I computer si fonderanno con l'ambiente della vita quotidiana, finché diventeranno indistinguibili da esso, per migliorare le nostre capacità sensoriali e percettive.

Eurotech



1992
Company's **Foundation**

1993
First Products Based on **PC/104**

1995
First Producer PC/104 market module based on Intel 32-bit 486DX processor

2005
Listed in the Milan **stock Market** STAR segment

2008
Launch of innovative **Catalyst Module,** Intel Atom processor

2009
VDC Research Group Platinum Award for **Embedded Board Vendor**

2010
Announcement of Aurora "green" **Supercomputer** with liquid cooling

Launch of the **Everyware IoT** platform

2015
Launch of the **Gateway Family**

2017
25th Anniversary

- Behind the products of more than 20 Global 500 companies
- One of the world top player in the Embedded Computers market
- Strong vertical market competences

25+ years of experience in embedded, IoT, and distributed systems:

- **Embedded computing** & communication solutions – standard, custom, COTS
- **High Performance** Embedded Computer **boards & sub-systems**
- **Low power** and ultra-low power embedded computer boards and sub-systems
